### Best Practices

- **Surrounding areas**- Be respectful of surrounding campers stay out of their areas.
- **After hours quiet time** – Before 7:00 AM and after 10:00 PM
- **Garbage** – Use provided receptacles and pack it in pack it out!
- **Pets** – If you bring your pet, you are responsible for it at all times, pets must be on a leash if on grounds, please be considerate. The camp warden is serious about the leashes. Super serious.
- **Smoking and vaping areas** – common areas will have a designated smoking area. You can smoke in the parking lot and personal camp area, but you must use containers for your cigarette butts. Please, please, please pick up your cigarette butts as they are made. (Common area designated areas containers will be provided).
- **Clean up** – all areas must be left how we found it.

###
